BARN AND HAY DESTROYED BY FIRE

Flames Thought to Have Originated From Spontaneous Combustion

A barn leased by George Avery in the vicinity of Smith's Corners and filled with 35 tons of hay, burned to the ground Wednesday evening about 7 o'clock.

It is thought the fire originated from spontaneous combustion. When discovered by Benjamin Davis it was a mass of flames. The fire had spread so fast when discovered that no attempt was made to extinguish the blaze as it would have been useless.

The future of the church will be destined by the Sunday school of today. It is a game in which each one can take part and in his last point he emphasized the great personality of Jesus Christ under which we rally.

Sunday school problems were discussed by Shepard B. Palmer, C. E. Smith, Secretary Edwin Hill of the Y. M. C. A., and Rev. J. B. Stocum, D. D., pastor of the Central Baptist church. The supper was served by a committee of ladies under the direction of Mrs. Henrietta Teft.

THIS STOPS HAIR FROM FALLING OUT

Ever try to count the dead, fallen hairs in your comb and brush? They are nature's advance warning of future baldness and proof that the dangerous little dandruff germ is busy on your scalp.

Dr. Sangerbund, the famous Paris specialist, first discovered that dandruff and falling hair are caused by a microbe. Then came the discovery of the value of the real Parisian Sage (liquid form) in destroying the dandruff germ and promptly preventing the further loss of hair. The effect of only three days' use of Parisian Sage is simply marvelous, and the American people have now awakened to the fact that dandruff is just as unnecessary as it is unhealthy, and that they can be quickly rid of it and save their hair by using a few ounces of Parisian Sage.

Parisian Sage is sold for not more than 50 cents a large bottle at drug and toilet counters everywhere. It is an ideal, daintily perfumed liquid, free from grease and stickiness, and will surely cause hair to grow again at the thinned and really seem twice as abundant.
